

The Braverman Nature Assessment

Part One: Determining Your Dominant Nature

Instructions: Answer each question by circling either T for true or F for false. At the end of each group, record only the total number of True statements in the space provided.

Answer the questions in terms of how you feel most of the time. For example, if you've had a bad night's sleep and feel tired today, answer the questions that pertain to your energy levels based on how you feel on more average day.

Part Two: Defining Your Deficiencies

Instructions: Answer each question by circling either T for true or F for false. At the end of each group, record only the total number of True statements in the space provided. The second assessment will determine if you are deficient in any of the four biochemicals, including the one that governs your nature. Many of the questions relate to symptoms you might be experiencing. Answer the questions in terms of how you feel right now: it doesn't matter how long you've been experiencing these symptoms, even if they occurred today for the first time.

1B

1. I have trouble paying consistent attention and concentrating. T / F
2. I need caffeine to wake up. T / F
